

PRESS RELEASE

Investitions- und Förderbank Niedersachsen will rely on Beta Systems for Identity Management in the future

Berlin, 26 November 2020- The Investitions- und Förderbank Niedersachsen, NBank, based in Hanover, will use the Garancy IAM Suite in the future. Beta Systems has already won seven investment banks in Germany as customers.

NBank will implement the Garancy IAM Suite for 550 users and will connect a large number of system-critical IT processes in the future with Garancy, especially banking SAP applications.

The Investitions- und Förderbank Niedersachsen - NBank is the competent contact in Lower Saxony for corona support, housing construction as well as start-up and SME financing and for all relevant support programs of the European Union, the federal government, the state and the municipalities.

Using the Garancy IAM Suite ensures that each employee is only granted those authorizations in IT systems that he or she needs to perform his or her tasks in order to achieve an appropriate level of security.

The investment bank is now in a position to meet internal audit requirements, the requirements of MaRisk and the banking supervisory requirements for IT (BAIT). In particular, the extensive options for recertifying employees and maintaining the separation of duties have led to both a significant increase in security and cost savings.

End of the press release

About Beta Systems IAM Software AG

Beta Systems IAM Software AG is the largest independent European provider of authorization management solutions. With the GARANCY Identity Access Management Suite, companies control and monitor access to data and applications according to organizational and regulatory requirements. The IAM Suite is available both in the cloud and locally in the company's own data center. Beta Systems IAM Software AG is a 100% subsidiary of Beta Systems Software AG.

Beta Systems was founded in 1983, is listed on the Scale segment of the German Stock Exchange and employs around 650 people across the Group. The company is headquartered in Berlin - other important development sites are located in Cologne, Munich, Neustadt (Weinstrasse), Rietheim-Weilheim, Rengsdorf, Szczecin and Wroclaw. Beta Systems is active nationally and internationally with more than 20 of its own group companies and numerous partner companies. More than 1,000 companies around the world use products and solutions from the Beta Systems Group, making it one of the leading medium-sized and independent software providers in Europe.
