

PRESS RELEASE

Beta Systems implements IAM solution at MULTIVAC

Berlin, 6th October 2021 - MULTIVAC Sepp Haggemüller SE & Co. KG will be using the Garancy IAM Suite from Beta Systems in the future. The Identity Access Management solution enables the central management of identities and authorizations for the systems and applications used by MULTIVAC worldwide. The solution will implement user and rights management for up to 8,000 users for a variety of connected systems, including SAP, Azure, SuccessFactors and cloud applications based on SCIM.

Access rights are effectively and traceably controlled from recruitment to exit. Comprehensive user and role recertification ensures that users only have the access rights they actually need. This leads to increased security through the use of fast and auditable processes that meet the regulatory and IT security requirements for industrial companies.

MULTIVAC is one of the world's leading suppliers of integrated processing and packaging solutions for all types of food, life science and healthcare products as well as industrial goods. The MULTIVAC Group employs around 6,700 people worldwide, with around 2,300 employees at its headquarters in Wolfertschwenden, Germany. With over 85 subsidiaries, the company is represented on all continents. More than 1,000 consultants and service technicians all over the world put their know-how and experience at the service of the customer and ensure maximum availability of all installed MULTIVAC machines.
